Brisbane, QLD 4170

PROFESSIONAL SUMMARY

Passionate Front-end Software Engineer with over 7 years of experience in front-end development, specializing in React and Next.js. Proficient in designing and maintaining enterprise-grade software solutions across various domains. Skilled in agile methodologies, a good team player, and a creative problem solver dedicated to continuous improvement.

SKILLS

- **Languages & Frameworks:** TypeScript, JavaScript, NodeJS, React, Next.js
- **UI/UX Design:** HTML5, CSS3, SASS, LESS, Bootstrap, Tailwind, Material-UI, Angular Material
- **Web Development:** Progressive Web Apps (PWA), Responsive Design Techniques
- **APIs & Databases:** REST APIs, GraphQL, MySQL
- **Tools & Practices:** Agile CI/CD pipelines, Agile Methodologies, GIT, Bitbucket, VS Code, Babel, Webpack, NPM, Yarn, Firebase
- **Testing:** Writing Unit (React testing lib, Jest, Enzyme)

PROJECTS

1. **Portfolio website** – HTML CSS JavaScript
<https://github.com/thilankacg1/Portfolio-Website>
2. **Simple-Weather-App** – HTML CSS JavaScript
<https://github.com/thilankacg1/Simple-Weather-App>

WORK HISTORY

Technical Lead

Mitra Innovation, Sri Lanka, 04/2023 - 09/2023

- Led client requirement clarifications and spearheaded technical implementations, ensuring alignment with business objectives and timely delivery.
- Enhanced user interfaces to improve functionality and user experience and engagement.
- Collaborated closely with back-end teams to integrate RESTful APIs, ensuring seamless data flow and robust application performance.
- Consistently wrote clean, maintainable code following web standards, reducing technical debt and facilitating easier future updates.
- Enhanced application accessibility and ensured cross-browser compatibility, achieving WCAG 2.1 compliance and broadening user reach.
- Implemented optimizations that improved application performance and strengthened security protocols, reducing vulnerabilities.

Associate Technical Lead

Mitra Innovation, Sri Lanka, 04/2021 - 04/2023

- Conducted thorough code reviews to ensure high-quality standards and adherence to best practices.
- Analyzed system performance metrics and implemented improvements, enhancing overall system efficiency.

3. **LinkedIn-clone** – React, React hooks, Redux, Tailwind CSS, Firebase
<https://github.com/thilankacg1/MyLinkedIn-Clone>
4. **MERN project** -
<https://github.com/thilankacg1/urIshortner-app-client>
<https://github.com/thilankacg1/urIshortner-app-server>

• EDUCATION

University of Kelaniya
Sri Lanka, 2012 - 2015

**Bachelor of Science (BSc),
Management Information Technology**

- Researched and adopted new technologies to stay current with industry trends and improve development processes.
- Actively discussed project risks, opportunities, and mitigation strategies with senior leadership to drive project success.

Senior Software Engineer

Mitra Innovation, Sri Lanka, 04/2019 - 04/2021

- Built interactive user interfaces using React and Angular, enhancing user experience and engagement.
- Developed reusable components and services to streamline development and improve code maintainability.

Software Engineer

Mitra Innovation, Sri Lanka, 04/2017 - 04/2019

- Developed mobile-friendly web pages, emphasizing usability and responsiveness to enhance user experience across devices.
- Collaborated on the integration of RESTful APIs, ensuring seamless data exchange and functionality.
- Optimized code efficiency by creating reusable components and services, promoting maintainability and scalability.

Associate Software Engineer

Mitra Innovation, Sri Lanka, 03/2016 - 01/2017

- Created reusable components and services to enhance code efficiency and streamline development processes.
- Built user interfaces with a strong emphasis on reusability and maintainability, ensuring a consistent and scalable codebase.
- Applied web accessibility standards and responsive design principles to ensure inclusive and mobile-friendly user experiences.

Intern Software Engineer

Calcey Technology Sri Lanka, 11/2014 - 02/2015
